CORPORATE BRAND GUIDELINES

Logo

The Positive Technologies logo is technology-centric, positive, and innovative. The font—laconic, precise, yet open—exemplifies high-tech typography in keeping with the company's forward-looking ethos.

All letters in the logo are styled identically.
The horizontal, steadfast logo is made dynamic by the slightly stretched letters.
The width of the letter P is considered in calculations as $X=xp$.

The logo is always written in English letters.

The logo exists in three versions:

- Primary version—horizontal.
- Additional version—square, with the company name on two lines.
- Additional, space-efficient version—square with the company initials.

CORPORATE BRAND GUIDELINES

Logo comfort zone

The logo must always have space around it, so give it "room to breathe." This ensures that the logo is easy to read and does not get overwhelmed by surrounding text or graphics. The minimal buffer space on each of the four sides of the logo equals 1/2 the height of the logo itself.

Minimal logo sizes (width) in print media.

POSITIVE TECHNOLOGIES

Permissible styling option

When the logo is backgrounded by a corporate red color, a white rectangle/square outlines the logo. The thickness of the rectangle/square equals the thickness (weight) of the font.

CORPORATE BRAND GUIDELINES

Logo contrast and permissible uses of

On a single-color dark background, if the color is not a corporate color, the logo must be white.

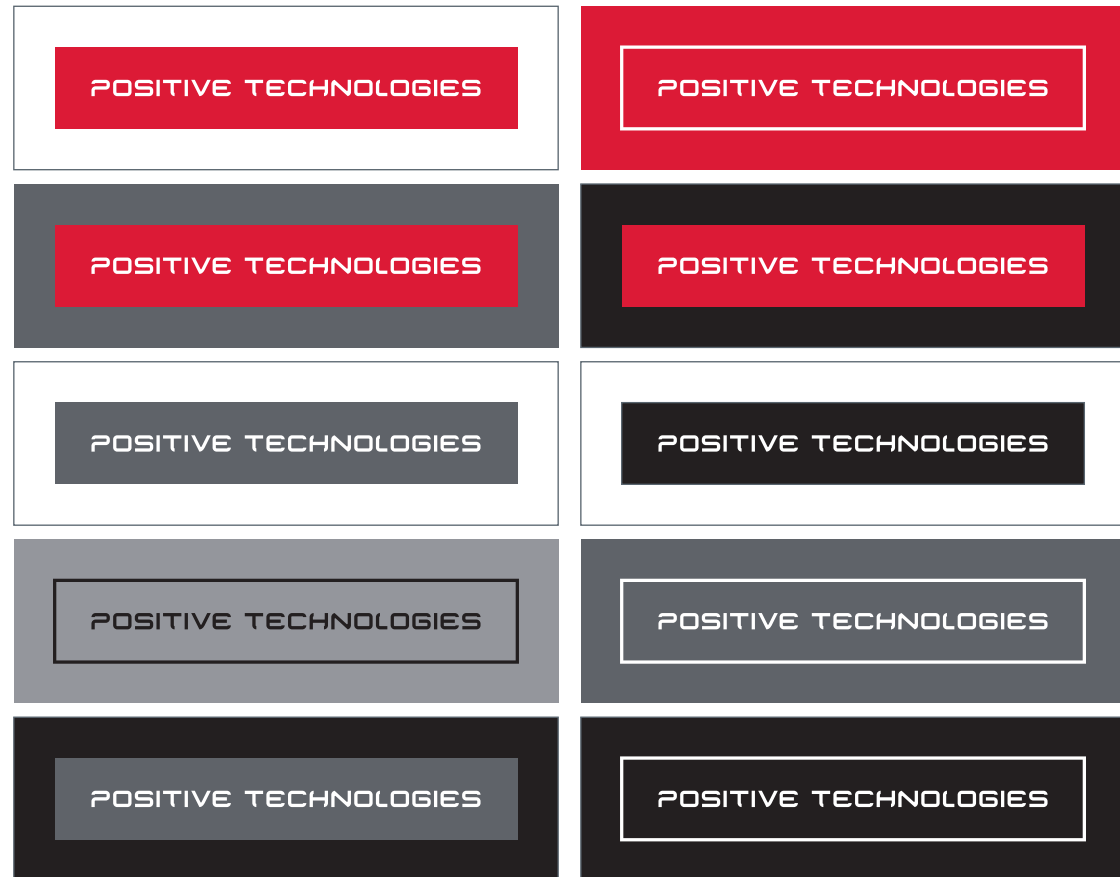

On a Positive Gray background, the logo must be white.

On a Positive Red background, the logo must be white.

On a single-color light-gray background, Positive Red is used.

On a single-color dark background, if the color is not a corporate color, the logo must be white.

On a single-color bright background, Positive Gray is used.

CORPORATE BRAND GUIDELINES

Do not:

Change the logo proportions.

Put the logo at an angle.

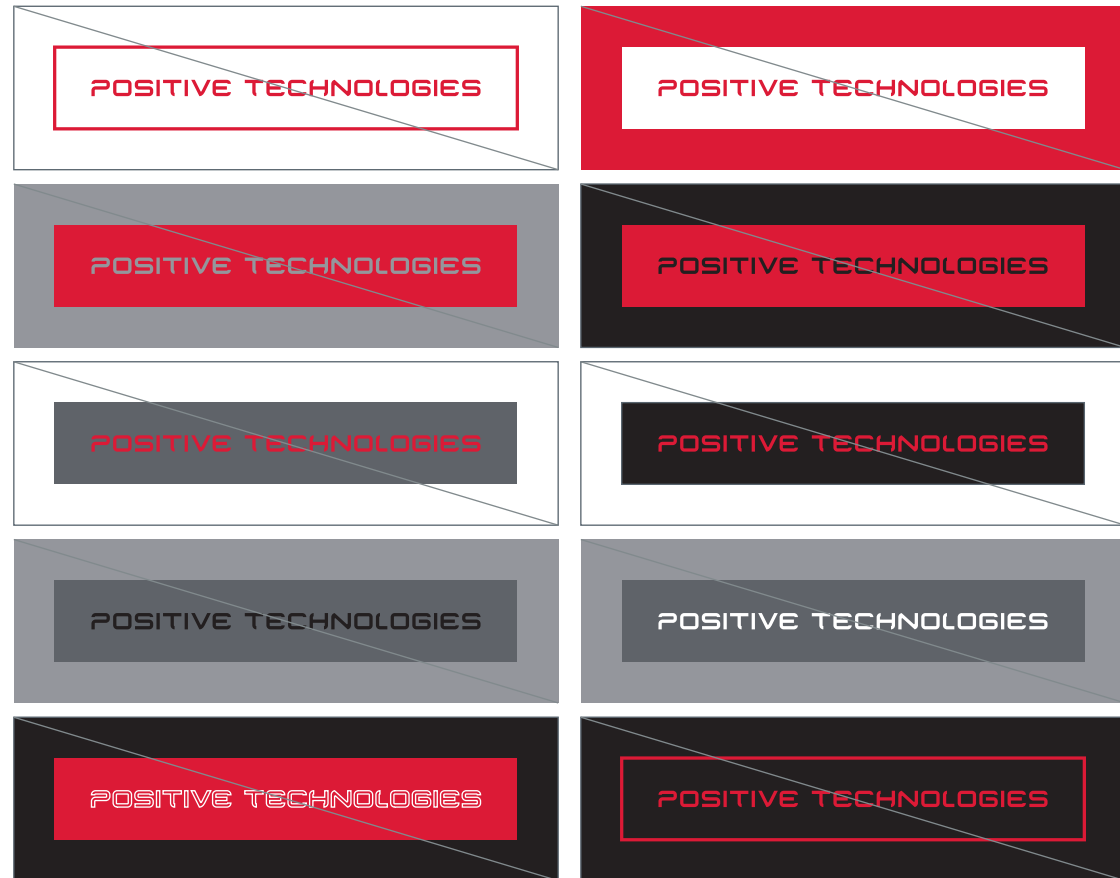

Use non-corporate colors.

Use gradients, shadows, or contour lettering in the logo.

Place text or graphics in the empty space of the logo.

Use the logo as a background for text or graphics.

Use non-contrasting color combinations for the logo and background.

CORPORATE BRAND GUIDELINES

Main colors

The main corporate colors in Positive Technologies style are red (Pantone 186C) and gray (Positive Gray Pantone 431C).

In advertising materials, Positive Red may be used for emphasizing key areas, as the background color of page elements.

In advertising materials, Positive Gray may be used similarly, but to provide lesser emphasis.

Positive Red Pantone 186 C R 198, G 12, B 48 Pantone 186 EC C 2, M 100, Y 82, K 6 HTML cc0000 ORACAL 031 rot red	R 226, G 85, B 81 C 7, M 82, Y 68, K 0 HTML E25551	R 238, G 131, B 122 C 2, M 60, Y 45, K 0 HTML EE837A

Logo-derived text

Based on the characters of the logo, a table of characters has been created at right.

These characters are suitable for printing slogans on souvenirs and other materials, without use of the logo while maintaining a connection with the Positive Technologies brand.

Rules governing color combinations are the same as for logo use.

A B C D E F G H
I J K L M N O P Q
R S T U V W X Y Z

A B B B Г Д Е Ж З
И К Л М Н О П Р
